QUALITY POLICY

It is the policy of AXXO Im- & Export GmbH, Hamburg to provide products and services that meet or exceed the requirements of our customers, contracts, and pharmaceutical industry standards. To implement this policy, the company operates and maintains a Quality Management System, in accordance with the requirements of ISO 9001: 2015.

We underline our commitment to a risk-based, process-orientated and customer-focussed Quality Management and the continual improvement of the same.

Our work is based on establishing a long term relationship with our customers, suppliers and partners that is built on reliability, expertise and fruitful cooperation on all levels.

The Quality Management System is comprised of the Quality Manual and all associated documents. Management and staff at every level are made aware of its requirements in their respective functions, assigned responsibility for its adoption and implementation, and are provided with the resources necessary for its adoption and implementation.

The Quality Management System is regularly reviewed by management for compliance, and for its ability to meet established goals for customer satisfaction and the company's needs.

The commitment to implement a successful Quality Policy begins with an organization's executive management. As Managing Director, I therefore affirm my commitment to this policy. I also recognize that we are all responsible for the quality of our own work, and must remain quality-conscious in all of our activities.

Hamburg, 19.11.2019

Frank Nedder
- Managing Director -

Daniel Jagow
- Head of Quality Management -
